SUCCESS WITH INTERNATIONAL BORDERS

✅ CUSTOMS AND DOCUMENTATION
We stay on top of the constantly changing rules regarding international trade and advise you accordingly. With our guidance, you can avoid the documentation mistakes that cost money and cross the border on time.

✅ EXPORTS AND IMPORTS: GUIDANCE AND SHIPPING
Call on us to handle every detail of shipping between the United States, Mexico, Canada, Asia, Europe, and South America.

✅ OVERSIZE SHIPMENTS
Complex shipping challenges that seem almost impossible to solve are our specialty.

✅ MEXICO & CHINA
We understand every aspect of shipping in and out of Mexico & China, including customs clearance, tariffs, and legal requirements, incoterms and the optimal modes for shipping.

✅ SPECIAL CHALLENGES
- High value cargo
- Hazardous cargo
- Sensitive equipment
- Air charter emergency response
- Special packaging
- Just-in-time deliveries
After more than 26 years in the freight forwarding business, we've done it all - from customized packaging to customs documentation and clearance. We have the experience. We have the expertise and the successful track record to show for it.

**Oversized Cargo Shippers**

**Need to move heavy machinery across international borders?**

Moved a 10-ton, 63-foot long piece of machinery from Argentina to Mexico. Too big to fit in most planes, we took it apart, shipped it by air and by truck, and put it back together again - and kept our Tier One auto supplier client informed every step of the way.

Moved $2 million dollars' worth of high tech, encrypted computer equipment into China - provided packaging, transportation, movement licenses and delivery in a very narrow time frame.

Chartered a Boeing 747 cargo plane from Spain to Michigan to move automotive prototype assemblies and keep a manufacturer on production schedule when regular air freight couldn't work.

Shipped $48 million dollars' worth of combat optical equipment to a military zone in the Middle East.

After more than 26 years in the freight forwarding business, we've done it all - from customized packaging to customs documentation and clearance. We have the experience. We have the expertise and the successful track record to show for it.

HELP US, HELP YOU.

• Bring us in during the prebuild phase
  ◦ We can help you build to container/truck specs
  ◦ We can help you with timelines
• We can help provide shipping options for air vs. ocean
  ◦ We can contact carriers for schedule options.
  ◦ Negotiations with carriers on discounted rates are more likely to occur with advanced planning
  ◦ Negotiate extra free days for demurrage
• We can conduct site surveys at delivery location well in advance and plan rigging/offloading if needed

You can save thousands of dollars by including ICAT Logistics during preproduction.
THANK YOU!
