## METHODOLOGY

The Glengariff Group, Inc. conducted a Michigan statewide survey of the general population. The 600-sample survey was conducted on April 15-16, 2020. The 600-sample survey provides a margin of error of +/-4.0% with a 95% level of confidence. Data collection for this survey was conducted via automated calling and text messaging. 50% of respondents were contacted via automatic dialing, landline telephone. 50% of respondents were contacted via cell phone text message. This survey was commissioned by the Detroit Regional Chamber.

## KEY FINDINGS

### 9% of Michigan Residents Believe They Contracted COVID-19

- \* 9% of respondents said they believe they have contracted COVID-19, even if they had not been tested. 8% of respondents said they believe someone in their household contracted COVID-19, even if they had not been tested.
- \* 18% of those 'still working as normal' believe they have contracted COVID-19, and 14% of those 'currently working from home' believe they have contracted COVID-19.
- \* 12% of both Republican and Independent respondents believe they have contracted COVID-19, while only 5% of Democratic voters believe they have contracted the virus.
- \* 9% of white respondents and 7% of African American respondents believe they have contracted COVID-19.
- \* The sharpest differences came by age:

<u>Percentage</u>	<u>Age Bracket</u>
13%	18-29
16%	30-39
6%	40-49
9%	50-64
4%	65+

## 29% of State Residents Furloughed, Laid Off or Unable to Work

\* Respondents were asked to describe their current work status since the COVID-19 crisis:

- \* 32% of respondents were not working prior to the virus.
- \* 19% of respondents continue to work like they did before the virus.
- \* 20% of respondents continue to work but are doing so from home.
- \* 29% of respondents have been furloughed, laid off or are unable to work.

*42% of respondents 18-29 and 45% of respondents 30-39 have been laid off or furloughed – by far the largest percentage among demographic groups.*

*35% of Republican respondents are furloughed/laid off compared to 27% of Democratic respondents and 25% of Independent respondents. By region, the largest percentage of furloughed/laid off respondents were 41% in the Traverse City media market and 34% in the Grand Rapids media market. 27% have been furloughed/laid off in the Detroit media market.*

\* Among respondents that were working prior to COVID-19, 42.6% are now furloughed, laid off or unable to work.

## 27.3% of State Workforce Says They Have Been Forced to File for Unemployment

\* Among these 29% of total respondents that are furloughed, laid off or unable to work, they were asked if they have been forced to file for unemployment benefits.

- \* 64% have filed for unemployment benefits.
- \* 36% have not filed for unemployment benefits.

**Among residents that were working prior to the virus, 27.3% have now been forced to file for unemployment.**

\* Respondents that have been forced to file for unemployment were asked whether or not they have been successful:

- \* 48% of furloughed/laid off have been successful filing for unemployment.
- \* 37% of furloughed/laid off have NOT been successful filing for unemployment.
- \* 15% of these respondents are not sure if they have been successful filing for unemployment.

52% of unemployed workers under the age of 30 have not been able to successfully file for unemployment.

42% of unemployed men have not been able to successfully file for unemployment.

#### 69% of Furloughed/Laid Off Workers Face Catastrophic to Major Financial Impact

\* Respondents were asked to describe the impact that COVID-19 has had on their household's financial situation. *47% of Michigan residents said the financial impact on their household was catastrophic or major.* 51% of Michigan residents said the financial impact was minor or nothing at all.

- \* 12% said the impact was catastrophic.
- \* 35% said the impact was major.
- \* 36% said the impact was minor.
- \* 15% said there was no impact at all.

21% of residents under the age of 30 said that the impact was catastrophic. 30% of residents under 30 said the impact was major. 11% of residents aged 30-39 said that the impact was catastrophic. 48% of residents aged 30-39 said the impact was major.

20% of residents who have been laid off or furloughed said the impact was catastrophic. 49% of residents who have been laid off/furloughed said the financial impact was major.

***For residents who have been laid off or furloughed, 69% said the financial impact was catastrophic or major.***

### 28% of Residents Worried About Putting Food on the Table

- \* 28% of Michigan residents are worried about being able to put food on their table. 28% of Michigan residents are also worried about being able to pay their rent or mortgage.
  - \* ***54% of furloughed/laid off residents are worried about putting food on their table.***
  - \* ***54% of African American residents are worried about putting food on their table.***
  - \* ***45% of those aged 18-29 and 40% of those aged 30-39 are worried about putting food on their table.***
- \* Unlike partisan issues visible on so many Michigan issues, there appear to be few differences by party when it comes to concern about putting food on the table.
  - \* 31% of Democratic residents, 26% of Republican residents and 26% of Independent residents are worried about putting food on the table.

### Majority Believe Michigan Already In Recession

- \* 50% of respondents believe Michigan is already in a recession. 27% believe the state is not in recession. 23% of respondents are not sure.
  - \* 58% of Independent voters and 51% of Democratic voters believe the state is in recession. But only 42% of Republican voters believe the state is in recession. 34% of Republican voters say the state is not in a recession.

### How Long Until Financial Recovery?

- \* Respondents were asked once the stay at home order is lifted, how long it would take for their household finances to return to normal.
  - \* 14% of residents said their finances had not changed.
  - \* 46% of residents said their finances would return to normal within one month.
  - \* 24% of residents said their finances would return to normal in a couple of months.
  - \* 15% of residents said the finances would return to normal in one year.

For respondents that had been furloughed, laid off or cannot work:

- \* 2% said their finances had not changed.
- \* 41% said their finances would return to normal within one month.
- \* 35% said their finances would return to normal in a couple of months.
- \* 21% said their finances would return to normal in one year.

### Getting Back to Work

- \* Respondents were asked how soon they would get back to work once the stay at home order is lifted.
  - \* 20% said they would return right away.
  - \* 19% said they would return in a couple of weeks.
  - \* 13% said they would return in one month.
  - \* 25% said they would return in a couple of months.
  - \* 23% of residents said they simply did not know.

Among those who have been furloughed, laid off or unable to work:

- \* 15% said they would return right away.
- \* 22% said they would return in a couple of weeks.
- \* 12% said they would return in one month.
- \* 25% said they would return in a couple of months.
- \* 26% of residents said they simply did not know.

- \* When it is time to get back to work, furloughed/unemployed workers and those who are working at home were asked if they would feel safe or not safe going back to their place of work.
  - \* 61% of these workers said they felt safe. 32% of these workers said they did not feel safe. (20% feel very safe. 41% feel somewhat safe. 25% felt somewhat unsafe. 7% felt very unsafe.)
  - \* White voters felt safe by a margin of 62%-31%. African American voters felt safe by a narrower margin of 52%-39%.
- \* By a margin of 60%-20%, resident going back to work said they trusted their workplace to keep them safe. 20% of these workers were not sure.

### Michiganders Split on When State Will Be Back to Normal

\* Residents were asked how long it would take for Michigan to return to normal.

18% said Michigan would be back to normal with one month.

39% said Michigan would be back to normal between one to six months.

36% said Michigan would be back to normal in a year or more.

\* 4% said a few weeks

\* 14% said a month

\* 24% said several months

\* 15% said six months

\* 18% said a year

\* 18% said more than one year

\* 7% are not sure.

### President Trump COVID-19 Approval at 44%-50%

\* Michigan residents disapprove of President Trump's handling of COVID-19 by a margin of 44%-50%.

\* Republicans approve of his handling by a margin of 88%-9%. Democrats disapprove of his handling by a margin of 6%-86%. Independent voters disapprove of the President's handling by a margin of 40%-52%.

\* Men approve of his handling 49%-46%. But women disapprove of his handling by a margin of 39%-54%.

Governor Whitmer COVID-19 Approval at 57%-37%

- \* Michigan residents approve of Governor Whitmer's handling of COVID-19 by a margin of 57%-37%.
  - \* Democrats approve of her handling by a margin of 89%-8%. Republicans disapprove of her handling by a margin of 22%-70%. But Independent voters approve of her handling by a margin of 56%-35%.
  - \* Men approve of her handling 49%-42%. Women strongly approve of her handling by a margin of 64%-32%.

## MICHIGAN COVID-19 SURVEY

1. Do you approve or disapprove of the job President Donald Trump is doing handling the Covid-19 crisis? If you approve, press 1. If you disapprove, press 2. If you're not sure, press 3.

1.	Approve	44.0%
