30	Cross-tabulation Report

METHODOLOGY

The Glengariff Group, Inc. conducted a statewide survey of Michigan voters. The 600 sample, live operator telephone survey was conducted on May 12-16, 2020 and has a margin of error of +/-4.0% with a 95% level of confidence. 60.0% of respondents were contacted via landline telephone. 40.0% of respondents were contacted via cell phone telephone. This survey was commissioned by the Detroit Regional Chamber.

KEY FINDINGS

Michiganders Overwhelmingly See Covid as a Public Health Threat

- * By a margin of 86.3%-9.8%, Michigan voters say Covid is a threat to public health.
- * Voters were asked if the Covid threat was exaggerated, downplayed or balanced?

38.0% believe the threat has been balanced.
32.2% believe the threat has been exaggerated.
20.8% believe the threat has been downplayed.

There were important statistical differences among three demographic groupings: Party identification, race, and region.

<u>Demographic</u>	<u>Exaggerated</u>	<u>Downplayed</u>	<u>Balanced</u>
Strong Democratic	5.4%	39.1%	50.0%
Lean Democratic	9.1%	40.9%	38.6%
Independent	32.1%	14.7%	40.4%
Lean GOP	46.6%	5.2%	39.7%
Strong GOP	70.4%	3.7%	20.0%
White	37.0%	16.1%	39.4%
African American	4.9%	46.3%	40.2%
Out State	41.3%	17.3%	35.8%
Metro	23.5%	24.4%	41.4%

- * Only one demographic group falls below 80% who say that it is a threat. 67.4% of Strong Republican voters believe it is a public health threat. ***By a margin of only 57.6%-36.4%, Strong Republican men see Covid as a public health threat.*** By comparison, Strong Republican women see Covid as a public health threat by a margin of 76.8%-13.0%.

38.1% of Strong Republican men in UP/North, 44.4% of Strong Republican men in Southwest, 50.0% of Strong Republican men in East Central (Tri-Cities), and 33.3% of Strong Republican men in border counties of the Detroit Metro region believe Covid is not a public health threat.

Health Threat Much Greater Risk Than Economic Threat

- * Michigan voters were asked if they were more worried about their health or their financial situation. By a margin of 55.5%-21.7%, Michigan voters are more concerned about their health. 19.2% of respondents said they are equally worried about both.

- * Only one demographic group saw a difference in this pattern: Strong Republican voters.

43.7% of Strong Republicans are more concerned about their financial situation.

36.3% of Strong Republicans are more concerned about their health.

14.1% of Strong Republicans are equally concerned about both.

Michigan Voters Support Gradual Re-Opening

- * Respondents were read two different statements and asked which one more closely reflected their current position on Covid.

71.7% So that we do not experience a second wave of the illness, we need to reopen our economy gradually.

25.7% The economic damage is worse than the health damage. We need to quickly get our economy up and running again.

* Again, as with the previous question only Strong Republican voters saw a different pattern.

60.7% of Strong Republicans chose the economic damage statement with only 36.3% of Strong Republicans choosing the second wave of illness concern.

Michigan Voters: We Need to Learn to Live With Covid

* Respondents were read three different positions and asked which most closely reflected their current position. A strong majority of Michigan voters believe we need to restart our economy with protections and find ways to live with Covid.

58.3% For now, we will need to learn to live with Covid. So we need to start getting the economy going again, but with protections in place to try and keep as many people safe as possible.

26.0% The top priority must be health care and saving lives until a vaccine is developed even if it means the economy suffers.

13.3% We just need to re-start the economy and get people back to work. We can't let the economic damage be worse than the illness.

* One key difference is that Strong Democratic voters appear equally split between learning to live as safely as possible with Covid and waiting for a vaccine. 50.0% of Strong Democratic voters say we must learn to live as safely as possible with Covid compared to 45.1% who say we should wait for a vaccine. This difference is driven by 59.8% of African American voters that say we should wait for a vaccine compared to 35.4% that say we should learn to live with Covid.

President Trump and the National Response/ Numbers Look the Same

- * By a margin of 42.8%-50.4%, Michigan voters disapprove of President Trump's handling of the Covid pandemic. While 27.0% STRONGLY APPROVE of his performance, 43.2% STRONGLY DISAPPROVE of his performance.
 - * 90.2% of Democratic voters disapprove of the President's performance – with 81.5% strongly disapproving.
 - * 87.4% of Republican voters approve of the President's performance – with 68.9% strongly approving (18.5% somewhat approve).
 - * Independent voters disapprove of his performance by a margin of 39.1%-46.8%. Only 17.9% of Independent voters strongly approve of his performance while 39.1% of Independent voters strongly disapprove of his performance.
- * Michigan voters were asked if the nation is opening up too fast, too slowly or about right. A plurality of Michigan voters believe the nation is opening too quickly.
 - 40.0% Opening too fast
 - 31.8% Opening about right
 - 20.3% Opening too slowly

Michigan Voters Strongly Behind Whitmer Approach

- * By a margin of 63.7%-32.8%, Michigan voters approve of Governor Whitmer's handling of the Covid pandemic. 44.7% STRONGLY APPROVE of her performance, 25.3% STRONGLY DISAPPROVE of her performance.
 - * 96.2% of Democratic voters approve of the Governor's performance – with 81.0% strongly approving.
 - * 78.5% of Republican voters disapprove of the Governor's performance. 19.3% of Republican voters approve of her performance. 64.4% of Republican voters strongly disapprove of the Governor's performance.
 - * ***Independent voters strongly approve of Governor Whitmer's performance by a margin of 65.3%-27.5%. 39.7% of Independent voters strongly approve while 22.4% of Independent voters strongly disapprove.***

* Michigan voters were asked if the state is opening up too fast, too slowly or about right.

58.5% Michigan opening about right.

32.3% Michigan opening too slowly.

7.0%. Michigan opening too fast.

Only Republican voters believe Michigan is opening too slowly.

51.2% of out-state voters believe Michigan is opening about right while 40.3% say the state is opening too slowly.

65.5% of metro voters believe Michigan is opening about right while 24.8% say the state is opening too slowly.

Much has been made about the Upper Peninsula and Northern Michigan opening earlier. But 50.0% of voters in that region believe Michigan is opening about right while 39.7% say Michigan is opening too slowly.

* Michigan voters were asked if Michigan's response has or has not been clear and easy to understand.

62.3% said it was clear and easy to understand. 34.7% said Michigan's response was not clear and easy to understand.

Only Republican voters said Michigan's response was not clear and easy to understand. By a margin of 66.7%-30.8%, Independent voters said Michigan's response was clear and easy to understand.

By a narrow margin of 47%-53%, voters in Macomb County believe the Michigan's response was not clear and easy. In northern Michigan, voters say Michigan's response was clear and easy 54%-45%.

* Michigan voters were asked if Michigan's response made sense. By a margin of 66.8%-29.2, Michigan voters believe the state's response has made sense.

Again, only Republican voters believe the state's response does not make sense by a margin of 32.6%-60.0%.

Other than Republican voters, every other demographic group and every region of the state believes Michigan's response has made sense.

- * ***But by a margin of 65.8%-31.8%, Michigan voters strongly support opening some business by region*** as compared to treating all areas of the state the same.

Every region of the state overwhelmingly supports opening some regions before others, except voters in Detroit. By a margin of 45%-53%, Detroit voters say every region should be treated the same.

69% of Michigan Voters Say Protests Send the Wrong Message

- * Michigan voters were asked if recent protests occurring at the State Capitol sent the right message or the wrong message. By an overwhelming margin of 22.0%-68.7%, Michigan voters believe the protests send the wrong message.

The only voters who think the protests send the right message are Strong Republican voters at 51.1%-34.8%.

Independent voters think the protests send the wrong message by a margin of 17.3%-69.9%.

There is no region of the state that believes the protests send the right message.

- * ***By a margin of 57.6%-30.3%, Strong Republican men believe the protests send the right message.*** Republican women believe the protests send the right message by a margin of 44.9%-39.1%.

In particular, it is ***Republican men between the ages of 40-54 that believe the protests send the right message.*** The chart below looks at Strong Republican men by age group and whether they think the protests send the right or wrong message.

<u>GOP Men</u>	<u>18-29</u>	<u>30-39</u>	<u>40-49</u>	<u>50-64</u>	<u>65+</u>
Right Message	36.8%	37.5%	62.5%	64.3%	43.8%
Wrong Message	36.8%	56.3%	29.2%	25.0%	56.3%

Who Do Voters Trust On Covid?

- * Voters were given ten different sources of information and asked to rate them on a one to ten scale for how much they trusted each source to give them accurate information on Covid. *Medical providers were, far and away, the most trusted sources of information.*

8.7	Your doctor
8.2	Medical professionals
7.0	Dr. Anthony Fauci
6.1	Governor Whitmer
6.1	Your friends and family
5.3	Your local newspaper or local tv news
4.5	National news like NBC, CBS and ABC
4.4	President Trump
4.3	Cable news like CNN, FOX and MSNBC
2.4	Posts on social media like Facebook

The chart below ranks the top three trusted sources by party affiliation.

<u>Democrats</u>	<u>Independents</u>	<u>Republicans</u>
Medical Professionals (8.9)	Your Doctor (8.6)	Your Doctor (8.6)
Your Doctor. (8.8)	Medical Professionals (8.1)	President Trump. (7.6)
Dr. Fauci (8.6)	Dr. Fauci. (6.9)	Medical Professionals (7.5)

Not surprising, President Trump and Governor Whitmer receive strongly different ratings based on party affiliation. While Independent voters rate Governor Whitmer at 6.1, they rate President Trump at only 4.2.

<u>Party Affiliation</u>	<u>Trump Rating</u>	<u>Whitmer Rating</u>
Strong Democratic	1.9	8.3
Lean Democratic	2.4	7.6
Independent	4.2	6.1
Lean Republican	6.9	4.4
Strong Republican	7.6	3.1

Michiganders Will Approach the Economic Future ‘Gradually’/ No Rush to Re-engage

- * Voters were read thirteen different locations. Using a one to ten-point scale, they were asked if that location were to open next week, how comfortable would they be to go that location. The chart below indicates that Michigan voters will take a ‘gradual’ approach to re-engaging with the economy. *They will prioritize smaller, essential interactions to larger settings with the singular exception of being ready to be part of small group gatherings again.*

7.4	Grocery Store
6.9	Your Doctor’s Office
6.6	Small Group Gatherings of 10 People
6.0	The Hospital for a Medical Procedure
5.8	A Smaller Retail Store
5.3	Church and Religious Service
4.5	Universities
4.4	K-12 Schools
4.3	A Sit-Down Restaurant
3.9	The Mall
3.6	A Movie Theatre
3.2	A Sporting Event
3.0	A Concert

Republican voters are substantially more prepared to interact in all of these settings as compared to Democratic and Independent voters.

African American voters by a wide margin will be the most reluctant to engage in any of these settings – more so than voters over the age of 65.

80% of Michiganders Self-Report Wearing Masks/ Young GOP Men Not Wearing Masks

- * **80.7% of Michigan voters report they wear a mask when they go out.** 11.0% said they do not wear a mask. 7.8% of voters report they sometimes wear a mask.

The chart below looks at self-reported mask usage by party affiliation. Only 60.7% of Strong Republican voters say they wear a mask.

<u>Party Affiliation</u>	<u>Yes</u>	<u>No</u>	<u>Sometimes</u>
Strong Democratic	95.7%	1.6%	2.2%
Lean Democratic	95.5%	2.3%	2.3%
Independent	79.5%	10.9%	9.6%
Lean Republican	69.0%	15.5%	13.8%
Strong Republican	60.7%	25.2%	13.3%

88.8% of women wear a mask compared to only 71.9% of men who wear a mask.

Again, the difference appears to be Republican men. *While 72.5% of Republican women wear a mask, only 48.5% of Republican men wear a mask.* In particular, *it is Republican men UNDER 50 who do not wear a mask.* The chart below looks as mask usage among Republican men by age break:

<u>Republican Men</u>	<u>Yes</u>	<u>No</u>	<u>Sometimes</u>
18-29	42.1%	42.1%	15.8%
30-39	56.3%	31.3%	12.5%
40-49	41.7%	45.8%	12.5%
50-64	53.6%	17.9%	25.0%
65+	68.8%	12.5%	12.5%

- * By a margin of 74.5%-16.5%, Michigan voters believe businesses should be required to have their employees and customers wear face masks.

Strong Republican voters rate the lowest at only 60.7% believe business should be required to have employees and customers in face masks. 96% of Strong Democratic voters and 80% of Independent voters believe face masks should be required.

While 92% of voters over 65 support the mask requirement, only 70% of voters 18-29 support the mask requirement.

Financial and Food Emergencies Have Eased from April Survey

- * As with our April survey, voters were asked if the effect of Covid on their household finances has been catastrophic, major, minor or no effect at all. The chart below compares the April findings to the May findings.

In April, 47% of residents said the financial effect had been catastrophic or major. In May, that number dropped to 24%.

<u>Effect</u>	<u>April</u>	<u>May</u>
Catastrophic	12%	5%
Major	35%	19%
Minor	36%	46%
No Effect	15%	28%

The hardest financial implications appear to be for employees of businesses with less than ten people – 34.3% of those individuals said the results had been catastrophic or major.

Two categories of workers appear to face the largest financial implications: *Those working, but working reduced hours, and those who have been furloughed or laid off. Among those working reduced hours 42.3% say the financial implications are catastrophic or major. Among those furloughed/laid off, 45.2% say the financial implications are catastrophic or major – this is a drop from 69% in April.*

* 16.0% of Michigan residents continue to be worried about putting food on their table. This figure represents a drop from 26% in April.

24% of furloughed/laid off workers continue to be worried about putting food on their table – a reduction from 54% in the April survey.

But 23% of those workers working reduced hours continue to be worried about putting food on their table.

Workers Largely Ready to Return to Work; Small Business Workers Most Comfortable

* 66.1% of Michigan workers said they feel safe going back to work. 45.7% said they feel very safe while 20.4% feel somewhat safe.

* 32.7% of Michigan workers do not feel safe going to back to work yet. With 16.6% feeling very unsafe.

* People who work for businesses with less than 25 employees are most comfortable with going back to work. The chart below looks at safe versus unsafe by the size of the workers' business.

<u>Number of Employees</u>	<u>Safe</u>	<u>Unsafe</u>
1-10	76.3%	21.9%
11-25	83.3%	16.7%
26-100	58.7%	41.3%
101-500	63.3%	35.0%
500+	50.0%	47.2%

Outstate workers feel safe going to work by a margin of 78.7%-19.7%. But Detroit Metro workers only feel safe by a margin of 53.8%-45.2%.

Men feel safe going back to work by a margin of 73.7%-23.7%. But women feel safe by a margin of 58.3%-41.7%.

- * Of particular note is that African American workers are the least confident about going back to work. ***By a margin of 40.0%-57.8% African American workers feel unsafe going back to work.*** White workers feel safe by a margin of 70.8%-28.2%.
- * ***By a margin of 77.0%-19.6%, workers trust their work place to keep them safe.*** This is an increase from 60% in April.

Workers Support Three Major Safety Precautions

- * Workers were read four different things their workplace might do to keep them safe at work. For each, respondents were asked to rate on a one to ten scale how safe that would make them feel. Three of the four rated in a range from 7.2 to 7.6.

- 7.6 Require that everyone maintains at least a six foot distance from each other.
- 7.4 Require that everyone wears a mask during the work day.
- 7.2 Require that everyone has their temperature checked as they come into work.

- * But when ask about requiring employees to get a vaccine once it is available, that measure only rated a 5.9.

- * When asked in an open-ended question what one thing employers could do to make them more comfortable, seven different answers rose above 5%.

- 11.5% Require masks
- 10.5% Follow CDC guidelines
- 9.2% Maintain social distancing/ or allow work at home.
- 9.2% Conduct extreme cleaning and sanitizing
- 7.1% Provide personal protection equipment
- 6.1% Screen upon entering the facility
- 5.9% Have open communication with workers

**MICHIGAN COVID SURVEY
MAY 2020**

Hello, my name is _____. I'm not selling anything. I'm doing a short survey on the opinions of Michigan residents. It should take about six minutes.

A. Are you registered to vote at the address I am calling?

- | | | | |
|----|-----------------|--------|-------|
| 1. | Yes....CONTINUE | 100.0% | (600) |
| 2. | No....TERMINATE | | |

1. Can you tell me in what county you vote in? IF WAYNE, ASK: WOULD THAT BE IN THE CITY OF DETROIT OR OUTSIDE OF THE CITY OF DETROIT?

- | | | | |
|-----|--------------------------|-------|------|
| 1. | UP/North | 13.0% | (78) |
| 2. | West | 11.2% | (67) |
| 3. | Southwest | 8.3% | (50) |
| 4. | Mid Michigan | 8.7% | (52) |
| 5. | East Central | 7.7% | (46) |
| 6. | Oakland | 13.2% | (79) |
| 7. | Macomb | 8.5% | (51) |
| 8. | Wayne | 11.7% | (70) |
| 9. | City of Detroit | 6.7% | (40) |
| 10. | Remainder of Detroit MSA | 11.2% | (67) |

2. CODE:

- | | | | |
|----|---|-------|-------|
| 1. | Outstate
(UP/North West, Southwest, Mid, East Central) | 48.8% | (293) |
| 2. | Metro Detroit | 51.2% | (307) |

(Oakland, Macomb, Wayne, Detroit, Detroit MSA)

3. I would like to ask you some questions about how you view the current crisis about COVID 19. Would you say that COVID is or is not a threat to public health?

1.	Is a threat	86.3%	(518)
2.	Is not a threat	9.8%	(59)
3.	Don't Know/ Refused...DO NOT OFFER	3.8%	(23)

4. When it comes to COVID are you more worried about your health or are you more worried about your financial situation?

1.	Health	55.5%	(333)
2.	Financial Situation	21.7%	(130)
3.	Both equally...DO NOT OFFER	19.2%	(115)
4.	Don't Know/ Refused...DO NOT OFFER	3.7%	(22)

5. Would you say the health threat of COVID has or has been exaggerated, downplayed or balanced?

1.	Has been exaggerated	32.2%	(193)
2.	Has been downplayed	20.8%	(125)
3.	Has been balanced	38.7%	(232)
4.	Don't Know/ Refused...DO NOT OFFER	8.3%	(50)

6. Which statement more closely reflects your current position on COVID? [READ/ ROTATE 1-2]

1.	The economic damage is worse than the health damage. We need to quickly get our economy up and running again.	25.7%	(154)
2.	So that we do not experience a second wave of the illness, we need to reopen our economy gradually.	71.7%	(430)
3.	Don't Know/ Refused...DO NOT OFFER	2.7%	(16)

7. Which statement more closely reflects your current position on COVID? [READ 1-3]

1.	We just need to re-start the economy and get people back to work. We can't let the economic damage be worse than the illness.	13.3%	(80)
2.	For now, we will need to learn to live with COVID. So we need to start getting the economy going again, but with protections in place to try and keep as many people safe as possible.	58.3%	(350)
3.	The top priority must be health care and saving lives until a vaccine is developed even if it means the economy suffers.	26.0%	(156)
4.	Don't Know/ Refused...DO NOT OFFER	2.3%	(14)

8. I want you to think of how the nation as a whole is handling the COVID pandemic. Would you say the nation is opening up too fast, too slowly or would you say the pace is about right?

1.	Too fast	40.0%	(240)
2.	Too slowly	20.3%	(122)
3.	About right	31.8%	(191)
4.	Don't Know/ Refused...DO NOT OFFER	7.8%	(47)

9. And would you say you approve or disapprove of President Trump's handling of the COVID pandemic? ASK: WOULD THAT BE STRONGLY APPROVE/DISAPPROVE OR JUST SOMEWHAT APPROVE/DISAPPROVE?

1.	Strongly approve	27.0%	(162)	APPROVE:	42.8%
2.	Somewhat approve	15.8%	(95)		
3.	Somewhat disapprove	7.2%	(43)		
4.	Strongly disapprove	43.2%	(259)	DISAPPROVE:	50.4%
5.	Neither approve, nor disapprove...DO NOT OFFER	3.5%	(21)		

6.	Don't Know/ Refused...DO NOT OFFER	3.3%	(20)		
10.	And what about Michigan's response? Would you say Michigan is opening up too fast, too slowly or would you say the pace is about right?				
1.	Too fast	7.0%	(42)		
2.	Too slowly	32.3%	(194)		
3.	About right	58.5%	(351)		
4.	Don't Know/ Refused...DO NOT OFFER	2.2%	(13)		
11.	And would you say you approve or disapprove of Governor Whitmer's handling of the COVID pandemic? ASK: WOULD THAT BE STRONGLY APPROVE/DISAPPROVE OR JUST SOMEWHAT APPROVE/DISAPPROVE?				
1.	Strongly approve	44.7%	(268)	APPROVE:	63.7%
2.	Somewhat approve	19.0%	(114)		
3.	Somewhat disapprove	7.5%	(45)		
4.	Strongly disapprove	25.3%	(152)	DISAPPROVE:	32.8%
5.	Neither approve, nor disapprove...DO NOT OFFER	2.2%	(13)		
6.	Don't Know/ Refused...DO NOT OFFER	1.3%	(8)		
12.	Several weeks ago two protests occurred at the State Capitol in Lansing opposing Michigan's COVID response. Would you say those protests delivered the right message or would you say those protests delivered the wrong message?				
1.	Right message	22.0%	(132)		
2.	Wrong message	68.7%	(412)		
3.	Don't Know/ Refused...DO NOT OFFER	9.3%	(56)		
13.	Overall, would you say that Michigan's response to COVID has or has not been easy and clear to understand?				
1.	Yes, easy and clear	62.3%	(374)		
2.	No, not easy and clear	34.7%	(208)		
3.	Don't Know/ Refused...DO NOT OFFER	3.0%	(18)		

14. Overall, would you say that Michigan’s response to COVID has or has not made sense?

1.	Yes, made sense.	66.8%	(401)
2.	No, has not made sense.	29.2%	(175)
3.	Don’t Know/ Refused...DO NOT OFFER	4.0%	(24)

I am going to read you a list of people you might receive information from about the COVID pandemic. Using a scale of one to ten, I want you to tell me how much you trust that person or entity to give you information that will keep you safe. One means you do not trust them at all. Ten means you trust them completely. You can choose any number between one and ten.
