## METHODOLOGY

The Glengariff Group, Inc. conducted a Michigan statewide survey of registered voters. This survey was commissioned by the Detroit Regional Chamber.

## KEY FINDINGS

## Lay of the Land

* By a margin of $35.3 \%-48.2 \%$, Michigan voters believe the nation continues to be on the wrong track. While the 'right track' number is statistically consistent with February 2021, the 'wrong track' number has increased by seven points.

| October 2020 | $27.4 \%$ | $55.9 \%$ | $16.7 \%$ |
| February 2021 | $36.6 \%$ | $40.6 \%$ | $22.9 \%$ |
| May 2021 | $35.3 \%$ | $48.2 \%$ | $16.5 \%$ |

* The national right track/wrong track continues to be driven by a sharp partisan divide. But Independent voters continue to believe the nation is on the wrong track by a margin of $28.9 \%-48.8 \%$.

| Party Affiliation | Right | Wrong |
| :--- | :--- | :--- |
| Strong Democratic | $69.9 \%$ | $15.0 \%$ |

* By a margin of $40.4 \%$ right track to $45.2 \%$ wrong track, Michigan voters believe the state is narrowly on the wrong track. These numbers represent a six-point drop in right track and a six-point increase in wrong track. The shift represents a minor softening of right track among Democratic voters and an eight-point drop among Independent voters.

| Survey | Right | Wrong |
| :--- | :--- | :--- |
| January 2020 | $44.5 \%$ | $26.2 \%$ |
| October 2020 | $44.9 \%$ | $41.3 \%$ |

## Motivation to Vote Looks Like 2018 and 2020

* Voters were asked on a scale of one to ten, how motivated they were to vote in the November 2022 election for Governor. Voter motivation continues sky-high at 9.2 on a 10.0-point scale nearly eighteen months before Election Day 2022. This 9.2 scale is slightly higher than 2018 voter motivation levels from January 2018, but just slightly below 2020 voter motivation levels. In January 2018, overall motivation to vote was at 8.9.

Motivation among Strong Democratic voters continues at 2020 levels at 9.6 while Strong Republican voters are at 9.2.

30. Some states, like Florida, allow local clerks to verify absentee ballot signatures as soon as an absentee ballot is returned and allow that clerk to prepare that ballot to be counted as soon as the polls close. In Michigan, clerks are allowed to begin preparing absentee ballots only one day before an Election. Should Michigan clerks be allowed to begin verifying and processing an absentee ballot when it arrives like in Florida, or should Michigan clerks only be allowed to begin verifying an absentee ballot one day prior to Election Day?
