KEY FINDINGS

Early Differences Appear In 2026 Motivation to Vote; Dems More Motivated Than GOP in Early View

Registered voters were asked two ways how motivated they were to vote in the November 2026 election: (1) Ranking their motivation on a one to ten scale and (2) Whether they planned to definitely, probably or probably not vote.

On a scale of one to ten they were asked how motivated they were to vote. The higher the number the greater the motivation to vote. Overall, voter motivation eighteen months out sits at 8.8 on a 10.0-point scale. The chart below compares motivation to past elections.

Party Affiliation	Oct 12	Oct 14	Oct 16	Oct 18	Oct 20	Oct 22	Oct 24	May 25
Strong Democratic	8.5	7.0	6.7	9.6	9.7	9.4	9.4	**9.2**
Lean Democratic	7.4	6.4	4.7	9.5	9.8	8.5	9.7	**8.3**
Independent	6.6	5.9	5.6	8.9	9.3	8.8	9.2	**8.3**
Lean Republican	8.3	6.2	6.2	9.2	9.7	9.6	9.6	**8.2**
Strong Republican	8.4	6.9	6.5	9.5	9.8	9.7	9.8	**8.8**

Strong Democratic motivation is nearly a half point higher at this stage than Strong Republican motivation.

The chart below compares May 2024 motivation to vote to May 2025 motivation to vote by party. Republican motivation to vote has fallen sharply. Democratic motivation to vote has seen an increase.

Party Affiliation	May 2024	May 2025
Strong Democratic	**9.0**	**9.2**
Lean Democratic	8.1	8.3
Independent	8.2	8.3
Lean Republican	**9.1**	**8.2**
Strong Republican	**9.6**	**8.8**

Registered voters were asked if they definitely plan to vote, probably plan to vote, or probably/definitely will not vote.

66.4% of registered voters said they will definitely vote.
23.8% of registered voters said they will probably vote.
5.9% of registered voters say they will likely not vote.
3.8% of registered voters simply did not know if they would vote.

[Note: In 2022, Michigan voter turnout was 55%.]

The chart below looks at the percentage of voters by party that say they are definitely voting in 2026.   At this early stage, Strong Democratic voters are 8.4 points higher in definite votes compared to Strong Republican voters.

Party Affiliation	Definitely Voting
Strong Democratic	**74.7%**
Lean Democratic	54.0%
Independent	65.5%
Lean Republican	47.5%
Strong Republican	66.3%

Differences between 'registered voters' and 'definite voters' appear throughout this survey as a result of early higher motivation to vote among base Democratic voters.

Generic Ballot Test Statistically Even Among Registered Voters; Moves to +2.2% for Dems Among Definite Voters

In a generic ballot test among all registered voters, a generic Republican held a .8% lead on a generic Democrat at 38.3% Republican to 37.5% Democrat.

The Deeply Unusual Numbers of Mike Duggan

Independent candidate Mike Duggan has deeply unusual numbers for two reasons:

Duggan's numbers are deeply bifurcated between Metro-Detroit and out-state Michigan.

Mike Duggan	TOTAL NAME ID	Favorable	Unfavorable	No Opinion	Never Heard
Metro	**86.0%**	54.0%	8.8%	23.2%	**13.7%**
Out-state	**31.2%**	7.4%	3.4%	20.4%	**68.4%**
